

SAFETY DATA SHEET

B&W Multicontrast Developer

1) IDENTIFICATION

Champion Product Code: 180108, 180147

Presentation: 2x5L, 220L Drum

Supplier: CHAMPION PHOTOCHEMISTRY
INTERNATIONAL LIMITED
Widford Ind Est
Chelmsford, Essex
Essex CM1 1AG
United Kingdom

Telephone No: + 44 (0) 1245 214942

Fax: + 44 (0) 1245 214959

2) COMPOSITION/INFORMATION ON INGREDIENTS

Product Description:

A water based monochrome photographic developer containing the following components contributing to hazard:

	CAS NO	%w/w
Hydroquinone	123-31-9	2-5
Potassium Hydroxide	1310-58-3	2-5

3) HAZARDS IDENTIFICATION

Human Health

Hazards:

Irritating to skin. Harmful. Possible risk of Irreversible effects. May cause sensitisation by skin contact. Limited evidence of a carcinogenic effect.

Safety Hazards

Contact with acids liberates harmful gas, (sulphur dioxide).
Contact with photographic Fixer liberates irritant gas (ammonia).

SAFETY DATA SHEET

B&W Multicontrast Developer

Environmental Hazards:

Will cause short term oxygen depletion if allowed to enter aquatic environment.

4) FIRST AID MEASURES

Eyes:

Flush immediately with eye-wash solution or clean water for at least 15 minutes holding the eyelids apart. Obtain medical attention if irritation or redness develops.

Inhalation:

Inhalation of the product is unlikely to occur. No vapour hazard exists under normal conditions of use.

Skin Contact:

Remove any contaminated clothing. Wash skin with cold water then thoroughly with a neutral, (non-alkaline) cleanser and water. Thoroughly wash contaminated clothing before re-use. Obtain medical attention if irritation develops.

Ingestion:

Rinse mouth with water and drink about two glasses of water. Do not induce vomiting. Obtain medical attention.

IN ALL CASES OF DOUBT OR IF SYMPTOMS PERSIST, SEEK MEDICAL ADVICE. SHOW THE PRODUCT LABEL AND THIS SAFETY DATA SHEET TO THE DOCTOR

5) FIRE-FIGHTING MEASURES

Not classified as flammable (water based). If involved in a major fire, toxic gases (CO, SO₂) could be produced.

Extinguishing Media:

Suitable for the surrounding fire.

Protective Equipment:

Self-contained respiratory equipment.

SAFETY DATA SHEET

B&W Multicontrast Developer

6) ACCIDENTAL RELEASE MEASURES

Personal Protection:

When dealing with spillages of concentrate or working strength solution, use the personal protection specified in Section 8. Ensure spill area is well ventilated.

Environmental Precautions:

Prevent large spillages from entering drain by absorption into inert absorbent material (eg. dry sand or earth) and transfer to a container for disposal by a licensed waste contractor. Wash small spillages to drain with copious amounts of water.

Cleaning Up:

After collecting the bulk of the spillage thoroughly wash area to drain with water.

7) HANDLING AND STORAGE

Handling:

When handling product concentrates, avoid contact with eyes, skin and clothing. Use in a well ventilated area. Avoid contact with the working strength solution. After handling, the routine use of a neutral, (non-alkaline), hand cleanser will minimise the risk of adverse skin reaction.

Storage:

Store in a dry, well ventilated area at a moderate temperature. Store away from incompatible substances, (see Section 10).

8) EXPOSURE CONTROLS/PERSONAL PROTECTION

Relevant Exposure Limits:

None.

Engineering Measures:

Ensure good ventilation or local exhaust ventilation of the working area.

SAFETY DATA SHEET

B&W Multicontrast Developer

Hand Protection:

Wear impervious gloves when handling concentrates and to prevent contact with the working strength solution.

Eye Protection:

Wear safety glasses with side shields as the minimum level of protection. Provide eye-wash bottles in the immediate working area.

9) PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Pale yellow liquid

Odour: Slight

pH at 20°C: 11.3@20°C

**Weight per ml
at 20°C:** 1.305

Freezing Point: <5C

Flammability: Not flammable

**Solubility
in water:** Completely soluble

10) STABILITY AND REACTIVITY**Stability:**

Stable under recommended storage conditions.

Materials to avoid:

Avoid contact with strong acids and oxidising agents. Avoid contact of the concentrate and working strength solution with photographic fixer, (Ammonia will be liberated from the fixer)

Hazardous Decomposition Products:

None under normal conditions of use.

11) TOXICOLOGICAL INFORMATION

SAFETY DATA SHEET

B&W Multicontrast Developer

Eye Contact:

May cause irritation. If eye-washing has not been thorough, corneal clouding may occur (hydroquinone).

Skin Contact:

Prolonged or repeated contact may cause irritation and possible sensitisation.

Ingestion:

Ingestion of the liquid concentrate is likely to cause irritation of the mouth and gastrointestinal tract. Systemic toxicity is expected to be low.

Inhalation (of the liquid):

Likely to cause irritation and inflammation to mucous membrane. No vapour hazard.

12) ECOLOGICAL INFORMATION

The following summary of expected environmental effects is based on known data for the principal ingredients and on the physico-chemical properties of the preparation.

A moderate bio-chemical oxygen demand will result in short term oxygen depletion in the aquatic environment, with subsequent localised damage to plant and animal organisms. Harmful short term effects are rapidly reduced by dilution, oxidation and photodecomposition and the product has a very low potential to persist in a harmful form.

As a result of the above properties, precautions should be taken to avoid release of the product or working strength solution into the environment, (see Section 13).

13) DISPOSAL CONSIDERATIONS

Surplus Product and Working Strength Solution:

Disposal should be in accordance with current local and national legislation and only by a licensed waste contractor. Do not dispose of either concentrate or working strength solutions into drains, sewers or waterways or on to soil.

SAFETY DATA SHEET

B&W Multicontrast Developer

Plastic Containers:

Rinse thoroughly with water and dispose as solid waste to land fill or re-cycle where possible.

Cardboard Cartons:

Re-cycle where possible or treat as solid waste.

14) TRANSPORT INFORMATION

Not classified as hazardous for transport purposes.

15) REGULATORY INFORMATION

Contains Hydroquinone and Potassium Hydroxide.

Hazard Symbol: Xn Harmful

Risk Phrases: R36/38 Irritating to eyes and skin.
R40 Limited evidence of a carcinogenic effect.
R43 May cause sensitisation by skin contact.
R68 Possible risks of irreversible effects.

Safety Phrases: S2 Keep out of reach of children
S36/37 Wear suitable protective clothing, gloves.
S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. (Show the label where possible)

16) OTHER INFORMATION

The information contained in this Safety Data Sheet does not constitute the users own assessment of work place risk as required by other health and safety legislation, (eg. COSHH Regulations in the UK).
