

Solo Background Support

The Solo Background Support features a unique pivoting cross bar which makes raising the background on the supports an easier and safer operation. Rather than step by step adjustments, the new pivoting connectors allow for much greater steps without making the whole structure unstable and unmanageable. The 3m version has a telescopic crossbar. The 4m version is made up of 1m sections and can be extended to 6m to accommodate wider textile backgrounds.

3m (10') LL LB1105

4m (13') LL LB1142

4m (13') LL LB1142 with 2m (6.5') Extension LL LB1143
